MEDICAL STATEMENT FOR MEAL MODIFICATIONS IN SCHOOL NUTRITION PROGRAMS

This form applies to requests for meal modifications for children participating in the U.S. Department of Agriculture's (USDA) school nutrition programs. Schools and institutions are required to make reasonable meal modifications for children whose physical or mental impairment restricts their diet. For guidance on meal modifications and instructions for completing this form, see the Connecticut State Department of Education's (CSDE) *Guidance and Instructions: Medical Statement for Meal Modifications in School Nutrition Programs*.

Note: The USDA requires that the medical statement includes information about the child's physical or mental impairment that is sufficient to allow the SFA to understand how it restricts the child's diet; an explanation of what must be done to accommodate the child's disability; and if appropriate, the food or foods to be omitted and recommended alternatives. **Schools and institutions should not deny or delay a requested meal modification because the medical statement does not provide sufficient information.** When necessary, schools and institutions should work with the child's parent or guardian to obtain the required information.
