

March 13, 2020

Good Afternoon EASTCONN School Programs and School Parents, Students and Staff,

With the ever changing landscape of the COVID-19 EASTCONN has decided to proactively close all programs and schools beginning Monday March 16th through Friday March 27th.

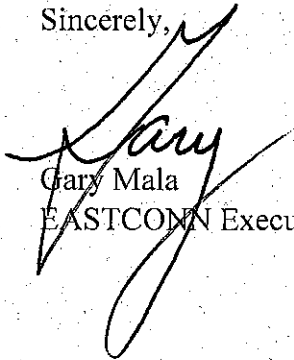

While we have no active cases the decision to close is a measure to slow the spread of the virus. We will reevaluate opening March 30th and will notify if any additional time off is required.

With the decision to close schools and programs for the next two weeks we anticipate making days up over the April vacation and extending the calendar year in June.

We are exploring how to make school meals available during extended school closures. As information becomes available we will communicate via school messenger.

Thank you for your continued patience as we work together to navigate this unprecedented time.

Sincerely,

Gary Mala
EASTCONN Executive Director
