Dear Families,

Today, out of an abundance of caution, EASTCONN programs located in Windham issued *shelter-in-place* orders. During a shelter-in-place, the buildings are locked down from anyone entering or exiting; however, students remain able to move between classes, as normal.

At approximately 8:30 we were notified by the Windham police of a potential issue at Windham High School resulting in the police recommendation for our Windham buildings to be secured. The shelter-in-place ended at 11:30 a.m. At no time were students or staff in danger. The safety of our students and staff is our first priority, and we will always work collaboratively with local authorities and take the necessary precautions to ensure everyone's safety and well-being.
